SUMMARY

Highly analytical Software Engineer with 1 year of professional experience in Java technologies, Spring Boot, and Microservices, coupled with a strong academic foundation. Proven ability in developing scalable, event-driven distributed systems and secure RESTful APIs. Eager to contribute expertise in application design and software development within an Agile environment at American Express.

SKILLS

Java | Spring Boot | Microservices | RESTful APIs | Apache Kafka | PostgreSQL | Redis | Distributed Systems | Event-Driven Architecture | Data Structures & Algorithms | System Design | LLM/AI Integration | AWS | Agile Methodologies | Automated Testing | Cassandra | Spark

EXPERIENCE

Software Engineer — Tata Consultancy Services

02/2025 – Present

- Built fault-tolerant Spring Boot service for distributed microservices, reducing recovery time from 5s to <1s for Real-Time Payment processing.
- Upgrading TCS Bancs architecture, migrating from legacy PL/SQL to Cloud-Native Microservices, processing millions of daily financial transactions.

Software Developer — Servosys Solutions

01/2024 – 12/2024

- Engineered custom Java load-balancing mechanism for document ingestion, scaling throughput by 58% (1,200 to 1,900 req/s).
- Engineered Apache Kafka event-driven pipeline processing 10,000+ documents daily; integrated AI/ML models, reducing search latency by 40%.

Software Developer Intern — Servosys Solutions

06/2023 – 12/2023

- Developed secure RESTful APIs for external client integrations, implementing JWT-based authentication and Role-Based Access Control (RBAC).

AI-Driven Resume Optimizer — Independent Project

01/2023 – 05/2024

- Engineered AI-driven document processing system using Gemini Models to optimize resumes, improving keyword matching and ATS compatibility.
- Implemented Apache Kafka for event-driven architecture, ensuring high availability and reliable message delivery for AI inference tasks asynchronously.
- Developed Spring Boot microservice utilizing Redis as a distributed cache; used PostgreSQL for storage, reducing latency for frequent lookups.

EDUCATION

Bachelor of Technology in Computer Science and Engineering, National Institute of Technology, Raipur (07/2020 – 05/2024)

ACHIEVEMENTS

- LeetCode Knight — 1300+ Problems Solved. Secured top ranks on LeetCode weekly contests.

- Specialist in Codeforces with a maximum rating of 1550.
