SUMMARY

Highly motivated Software Engineer with 3 years of experience in designing, developing, and deploying robust, scalable Java applications. Proven expertise in Spring Boot, RESTful micro services, distributed systems, PostgreSQL, and Apache Kafka. Adept at interpreting technical and business objectives, developing eloquent solutions, and committed to high-quality software development practices.

SKILLS

Java (Core, Java 8) | Spring Boot | Microservices | RESTful APIs Design | Apache Kafka (Event-Driven) | PostgreSQL | ORACLE (Relational Databases) | Redis (In-Memory Computing) | Data Structures & Algorithms | OOPS | AWS | Application Design | Software Development | Distributed (Multi-tiered) Systems | Vertx | Ignite | Agile | Cassandra | Yellowbrick | Spark | Automated testing

EXPERIENCE

Software Engineer - Product Development Division — Tata Consultancy Services

02/2025 – Present

- Engineered a fault-tolerant Spring Boot service for distributed microservices, reducing Real-Time Payment recovery time by 80% (5s to <1s).
- Architected modernization of a global core banking solution, migrating from legacy PL/SQL to Cloud-Native Microservices, enhancing scalability.
- Contributed to an Agile development environment, participating in stand-ups and sprint reviews, delivering high-quality features ahead of schedule.

Software Developer — Servosys Solutions

01/2024 – 12/2024

- Developed a custom Java load-balancing mechanism, scaling document ingestion throughput by 58% (1,200 to 1,900 RPS) and reducing latency.
- Designed an Apache Kafka event-driven pipeline, processing 10,000+ documents daily and reducing search latency by 40% via AI/ML.
- Implemented automated testing for Java microservices, boosting test coverage by 25% and reducing critical bug detection time by 20%.
- Diagnosed and resolved complex software defects in distributed systems using debugging tools, enhancing system stability and performance by 10%.

Software Developer Intern — Servosys Solutions

01/2024 – 12/2024

- Developed secure RESTful APIs for client integrations, implementing JWT and RBAC to protect sensitive document endpoints.

EDUCATION

Bachelor of Technology in Computer Science and Engineering, National Institute of Technology, Raipur (07/2020 – 05/2024)

ACHIEVEMENTS

- LeetCode Knight — Solved 1300+ Problems, achieved ranks 810, 983, 1324 in weekly contests.
- Codeforces Specialist — Achieved a maximum rating of 1550.
