SUMMARY

Results-driven Java Developer with robust experience in developing, testing, and maintaining Java-based applications. Proficient in Spring Boot, Microservices, and REST APIs, specializing in designing scalable and fault-tolerant systems. Experienced with Apache Kafka for event-driven architectures and integrating AI/ML models. Adept at contributing to the full software development lifecycle (SDLC), following Agile/Scrum methodologies, and ensuring high application performance, security, and scalability.

SKILLS

Java (Core, Java 8) | Spring Boot | Microservices | RESTful APIs | SQL (PostgreSQL, Oracle) | Apache Kafka | Redis | AWS | Data Structures & Algorithms | OOPS | LLM/AI Integration | Git | Agile/Scrum | SDLC | Performance Tuning | System Security | Scalability | Troubleshooting | Mockito | JDBC | JUnit | Hibernate | JPA | Angular | React

EXPERIENCE

Software Engineer — Tata Consultancy Services (Product Development Division)

02/2025 – Present

- Engineered a fault-tolerant service with Spring Boot to monitor distributed microservices, reducing recovery time from 5s to under 1s.
- Contributed to upgrading TCS Bancs architecture from monolithic PL/SQL to Cloud-Native Microservices, processing millions of daily financial transactions.

Software Developer — Servosys Solutions

01/2024 – 12/2024

- Engineered a custom Java load-balancing mechanism, scaling document ingestion throughput by 58% (1,200 to 1,900 req/s) and reducing latency.
- Developed an event-driven Apache Kafka pipeline, processing 10,000+ documents daily with AI/ML, reducing search latency by 40%.
- Developed and executed comprehensive unit tests using JUnit, maintaining 90%+ code coverage for critical Java components.
- Participated actively in the full software development lifecycle (SDLC) following Agile Scrum practices and sprint meetings.
- Debugged and troubleshooted defects in existing Java applications, enhancing system stability and reducing reported issues by 15%.

Software Developer Intern — Servosys Solutions

09/2023 – 12/2023

- Developed secure RESTful APIs for client integrations, implementing JWT authentication and RBAC to protect sensitive document endpoints.

EDUCATION

Bachelor of Technology in Computer Science and Engineering, National Institute of Technology, Raipur (05/2024)

ACHIEVEMENTS

- LeetCode Knight — Solved 1300+ problems, securing top ranks (810, 983, 1324) in LeetCode weekly contests.
- Specialist in Codeforces with a maximum rating of 1550.
- Engineered an AI-driven Resume Optimization system using Gemini Models and Apache Kafka for enhanced keyword matching and ATS compatibility.
