SUMMARY

Highly motivated Software Engineer with experience in developing, testing, and maintaining Java-based applications, including Spring Boot microservices and RESTful APIs. Proficient in the full software development lifecycle (SDLC), database management (SQL, PostgreSQL), and version control (Git). Demonstrated ability to debug, troubleshoot, and implement scalable solutions, with strong awareness of AI tools and Agile practices. Eager to contribute to innovative solutions at Citi.

SKILLS

Java | Spring Boot | Microservices | RESTful APIs | Apache Kafka | Redis | SQL (PostgreSQL, ORACLE) | Data Structures & Algorithms | OOPS | AWS | System Design | SDLC | Agile/Scrum | Git | AI/LLM Integration

EXPERIENCE

Software Engineer — Tata Consultancy Services (Product Development Division)

02/2025 – Present

- Developed fault-tolerant Java-based applications using Spring Boot for distributed microservice monitoring, reducing recovery time by 80%.
- Upgraded architecture of a core banking solution, migrating legacy PL/SQL to cloud-native microservices for millions of daily transactions.

Software Developer — Servosys Solutions

01/2024 – 12/2024

- Engineered a custom Java load-balancing mechanism, optimizing document ingestion and scaling throughput by 58% to 1,900 requests per second.
- Developed an event-driven Apache Kafka pipeline for 10,000+ daily documents, integrating AI/ML to reduce search latency by 40%.

Software Developer Intern — Servosys Solutions

07/2023 – 12/2023

- Developed secure RESTful APIs for client integrations, implementing JWT authentication and Role-Based Access Control.

AI-Driven Resume Optimizer — Personal Project

03/2023 – 06/2023

- Engineered an AI-driven resume optimization system using Gemini Models, improving keyword matching and ATS compatibility.
- Implemented Apache Kafka in an event-driven architecture, ensuring high availability for asynchronous AI inference tasks.
- Developed a robust Spring Boot microservice with Redis caching and PostgreSQL for persistent storage, reducing lookup latency.
- Designed an efficient data pipeline for extracting and mapping complex document data, maintaining contextual integrity.

EDUCATION

Bachelor of Technology in Computer Science and Engineering, National Institute of Technology, Raipur (05/2024)

ACHIEVEMENTS

- LeetCode Knight — 1300+ Problems Solved; secured top ranks in weekly contests (810, 983, 1324).
- Specialist in Codeforces with a maximum rating of 1550.
