SUMMARY

Highly motivated Software Development Engineer with 3 years of experience in designing, developing, and deploying robust, scalable Java-based applications. Proficient in Spring Boot, Microservices, RESTful APIs, Apache Kafka, and PostgreSQL. Proven ability to build distributed systems, optimize performance, and migrate legacy architectures to cloud-native solutions, ensuring high availability and secure Real-Time Payment processing for global core banking solutions.

SKILLS

Java (Core, Java 8) | Spring Boot | Microservices | RESTful APIs | Apache Kafka (Event-Driven Systems) | PostgreSQL | Redis (In-Memory Computing) | AWS | Data Structures & Algorithms | OOPS | SQL | System Design | Relational Databases | Vertx | Ignite | Spark | Cassandra | Automated Testing | NoSQL Databases | Agile

EXPERIENCE

Software Developer — Servosys Solutions

01/2024 – 12/2024

- Engineered custom Java load-balancing to scale document ingestion throughput by 58% (1,200 to 1,900 requests/second) and reduce latency.
- Designed event-driven pipeline using Apache Kafka to process 10,000+ documents daily, reducing search latency by 40%.
- Integrated AI/ML models within Kafka pipeline to automatically extract key entities from documents.
- Collaborated within Agile frameworks to deliver critical features for core banking solutions, improving team efficiency by 15%.
- Performed comprehensive debugging and identified code defects in distributed payment systems, enhancing system stability and security.
- Contributed to application design and architectural reviews, ensuring robust and scalable solutions for enterprise document management.

Software Developer Intern — Servosys Solutions

07/2023 – 12/2023

- Developed secure RESTful APIs for external client integrations, implementing JWT-based authentication.
- Applied Role-Based Access Control (RBAC) to secure sensitive document endpoints and ensure data integrity.

EDUCATION

Bachelor of Technology in Computer Science and Engineering, National Institute of Technology, Raipur (2024)

ACHIEVEMENTS

- LeetCode Knight — Solved 1300+ problems; secured top ranks in weekly contests (810, 983, 1324).
- Codeforces Specialist — Achieved a maximum rating of 1550, demonstrating strong algorithmic skills.
