SUMMARY

Proactive Software Engineer with over 2 years of experience in developing, testing, and maintaining robust Java-based applications. Proficient in Spring Boot, Microservices, and RESTful API development, with a strong foundation in the full software development lifecycle (SDLC). Skilled in leveraging AI tools for intelligent processing and optimizing application performance, security, and scalability within an Agile environment.

SKILLS

Java (Core, Java 8) | Spring Boot | Microservices | RESTful APIs | SQL (PostgreSQL, ORACLE) | Apache Kafka | Redis | AWS | Git | Agile/Scrum | AI/LLM Integration | Data Structures & Algorithms | OOPS | System Design | SDLC | JUnit | Mockito | JDBC | JPA | Hibernate | Angular | React

EXPERIENCE

Software Engineer — Tata Consultancy Services (Product Development Division)

02/2025 – Present

- Developed a fault-tolerant Spring Boot service to monitor distributed microservices, reducing recovery time during failures from 5 to under 1 second.
- Contributed to upgrading TCS Bancs architecture, migrating a global core banking solution from legacy PL/SQL to Cloud-Native Microservices, enhancing scalability.
- Wrote clean, efficient, and well-documented Java code, adhering to company coding standards and contributing to peer code reviews, improving maintainability.

Software Developer — Servosys Solutions

01/2024 – 12/2024

- Engineered a custom Java load-balancing mechanism to optimize document ingestion, scaling throughput by 58% (1200 to 1900 requests/second) and reducing latency.
- Developed an event-driven pipeline using Apache Kafka, processing 10,000+ documents daily and integrating AI models to reduce search latency by 40%.
- Developed secure RESTful APIs for client integrations, implementing JWT authentication and RBAC to protect sensitive document endpoints.
- Performed comprehensive unit testing to ensure code quality and stability for critical features, identifying and resolving 15+ defects before deployment.
- Actively participated in daily stand-ups and sprint reviews within an Agile framework, collaborating with cross-functional teams to refine features.

EDUCATION

Bachelor of Technology in Computer Science and Engineering, National Institute of Technology, Raipur (2024)

ACHIEVEMENTS

- LeetCode Knight — Solved 1300+ problems and secured top ranks in weekly contests (810, 983, 1324).
- Specialist in Codeforces with a maximum rating of 1550.
